# COVID 19 Total cases (Cumulative Charts)

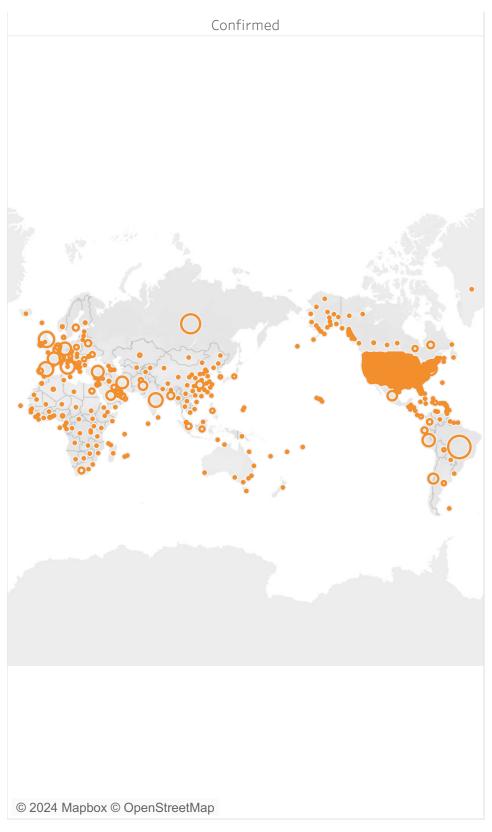

The plot of sum of Cases for Date Day broken down by Case Type. Color shows details about Case Type. The marks are labeled by sum of Cases by latest date and Last\_Date Day. The data is filtered on Country, City and Province State. The Country filter keeps True. The City filter keeps 1,902 of 1,902 members. The Province State filter keeps 136 of 136 members.

# COVID 19 Total cases (Cumulative Charts)

The plot of sum of Cases for Date Day broken down by Case Type. Color shows details about Case Type. The marks are labeled by sum of Cases by latest date and Last\_Date Day. The data is filtered on Country, City and Province State. The Country filter keeps True. The City filter keeps 1,902 of 1,902 members. The Province State filter keeps 136 of 136 members.

## COVID 19 Distribution World wide

Map based on Long and Lat broken down by Case Type. Color shows details about Case Type. Size shows sum of Cases by latest date. Details are shown for Country Region and Province State. The data is filtered on Country and City. The Country filter keeps True. The City filter keeps 1,902 of 1,902 members. The view is filtered on Province State, which keeps 136 of 136 members.
